***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: Prior art does not teach or suggest the step or circuit of providing a horizontal scan control signal which is provided from an oscillating signal generated by an oscillator of a phase locked loop receiving the horizontal synchronization signal, the oscillating signal having a frequency depending on a driving signal provided from the comparison between the horizontal synchronization signal and a binary phase signal, wherein, at each parasitic pulse among successive pulses between two synchronization pulses, the driving signal is alternately varied in the increasing direction and in the decreasing direction as recited in claim 1 and 3, the receiving step, the providing step, and the determining step as recited in claim 9, and the phase locked loop and the correction circuit as recited in claim 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to M. Lee whose telephone number 571-272-7349. The examiner can normally be reached on Monday through Thursday from 9 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David L. Ometz, can be reached on 571-272-7593. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
